

## **Army Corps Project Look – Ahead**

March 16, 2023

- Excavation and stone placement has begun on the east groin. Delivery of marine mattresses and stone will continue through the construction period ending in June. Offshore delivery of sand is scheduled to begin that month and continue through September while the west groin is constructed.
- Design work is continuing on the subsequent phases with updates provided to stakeholders at bi-monthly meetings.
- As construction progresses, we will try to post photos to document how the project is moving forward. You will find a link to the photos on the page that brought you here.
- Federal, state and local officials will speak at the Grounding breaking Ceremony at Firefighter's Park on Monday, March 20<sup>th</sup> at 11:00 AM.
