Upon a valid termination by either party, the Municipality shall be responsible only for the reasonable value of the services theretofore rendered, and in no event a sum greater than the ratio of completed work to the whole work contemplated by the Contract.

11. Interpretations of Specifications and Contract:

This Contract shall be construed pursuant to the laws of the State of New Jersey. Any litigation with respect to the interpretation of the terms of this Contract shall be within the sole jurisdiction of the Court of the State of New Jersey.

12. Confidential Nature of Project:

Disclosure of information, including pricing information or any information with respect to the

Company's or Municipality's technology and processes, to any individual, company, or corporation, other than the Assessor, the Municipality, the Company and its employees or their authorized representatives is expressly prohibited, and if done before conclusion of this project will be considered a violation of the Contract and subject the party in violation to liquidated damages. It is understood that this does not refer to information released under due process of law, the Open Public Records Act, or consistent with public bidding processes.

13. Public Relations:

During this project, the Company and its employees will endeavor to promote understanding and amicable relations with taxpayers and the general public. The Parties will endeavor to orient and educate all interested persons as to the inspection project. Any informational materials shall be presented to the Assessor prior to release. An initial mailing shall be made by the Company at its expense pursuant to Section 15 to all property owners prior to their scheduled inspections explaining the nature and purpose of the data collection program and notifying owners of the commencement of inspections in the Municipality.

The Municipality will publicize the project in advance of inspections to educate the public and maximize their cooperation and interior inspection/appointment rates, via website, newsletter or other available options.

The employees of the Municipality and the Company shall work together to maintain the full cooperation of all taxpayers by treating each inquiry with courtesy and supplying all necessary information within statutory requirements and limits to every interested taxpayer; however, each field inspector shall be instructed to refrain from discussions with the property owner, tenant, or occupant relating to property valuations, tax amounts or rates, or any related subjects. Any such inquiries will be directed to the Assessor.

14. Materials and Information To Be Provided:

The Municipality shall furnish the Company with the following:

- a) One (1) large and two (2) small copies of the up-to-date tax map (or sufficient digital maps) approved by the Director of the State of New Jersey Division of Taxation or his or her designate indicating the real estate assessment numbering system to assist field inspectors in locating properties; it should be noted that the tax maps may be “conditionally approved” which shall be considered acceptable for use in the valuation process.
- c) An electronic copy of the MOD IV file, and corresponding record layout from the Municipality’s data custodian, of current property records for all properties currently listed upon the tax records of the Municipality. This electronic file shall include, but not be limited to, the block, lot, additional lots, owner’s name and address, property location and property classification. The Municipality will also provide an outline and explanation of any unique data fields utilized by the Assessor to ensure that the Company’s revision of property records does not interfere with such data fields.
- d) Letters of introduction to facilitate the Company’s access to properties for inspection and data collection purposes.

15. Property Inspection:

At least two (2) weeks prior to their scheduled inspections, unless a different time frame is directed by the Assessor, the Company (at its own expense) shall notify the current owners on file for each property within the Municipality (excluding Municipality-owned properties), by mail, that the Company will be conducting inspections, explaining the nature and purpose of the data collection program. The letter must state that each property will be subject to an interior and exterior inspection and that there will be no further warning prior to the first inspection of the property. The letter will also provide contact information for the Assessor to field any

specific questions. A copy of said letter must be submitted to the Assessor prior to being mailed.

This Contract requires the inspection and verification of all property exteriors and three (3) interior inspection attempts. The Company shall not be required to complete any exterior inspections of properties which are inaccessible, or any exterior or interior inspections when the property owner and/or occupant refuses inspector entry, with such properties being labeled accordingly for the Assessor and excluded from subsequent visits.

All exterior and interior inspection attempts must be conducted in-person by the Company's personnel and the Company shall not rely on mailings or other contacts with property owners for purposes of fulfilling the Company's inspection requirements hereunder. However, data may be collected directly from property owners in select circumstances, as permitted by the Assessor, such as cases in which an owner or occupant's health is not conducive to an interior inspection. Any violations of this provision will result in termination of the Contract by the Municipality.

A careful inspection of each parcel shall be made after 9:00 a.m. but before 7:00 p.m. on any day, Monday through Saturday. Second and third inspections may be scheduled with property owners for any day of the week, including Sunday, provided the property owner/occupant agrees to the appointment time and day.

If the owner/occupant is not available at the time of the first inspection, a calling card or "door tag" shall be left in a conspicuous place (not in a mail box) indicating that the field inspector has attempted to visit, requesting that the owner/occupant arrange for an interior inspection by either calling the telephone number provided or through the Company's internet-based appointment website. This card shall include information advising that the inspection is necessary for the Municipality to accurately assess their property.

In cases where no interior inspection is possible after three (3) attempts or an owner/occupant refuses to either set an appointment (in a reasonably designated time period) or allow entry to the premises, the Company shall indicate this on the relevant property record, for review by the Assessor. In no event shall a card be left requesting the owner/occupant to fill in information.

The Company shall immediately notify the Assessor of any properties discovered not to be on the current tax list so as to permit adequate time to place an Added/Omitted assessment on the property.

The type of construction will be recorded by component parts such as, but not necessarily limited to, foundation, basement area, wall construction, roof, floors, interior finish, heating system, fireplaces, plumbing, fixtures, number of rooms and physical condition, as possible.

Each inspector shall record the name or code of the person making the inspection, the date of inspection, and obtain the signature of the occupant verifying that an interior inspection has been conducted. Actual interior inspection is required and at no time shall the property owner's description be accepted in lieu of inspection. The signature of the party present at the time of inspection shall be requested and be a part of the inspection documentation.

All properties within the Municipality must be inspected and verified during the term of the Contract, subject to the exceptions noted above, which shall include the initial term and extensions.

The Company shall be responsible for identifying those properties subject to inspection in any given year, with the exception of properties identified for Added/Omitted inspections which shall be the responsibility of the Assessor.

Inspections of 20% of the Municipality's properties shall be completed on an annual basis. Every year after 20% of the municipal properties shall be completed on annual basis, provided that the Company may inspect a greater or lesser number of properties during any calendar year upon the agreement of the Parties, and provided that (i) not less than 20% of the Municipality's properties are inspected during any contiguous two (2) year period, and (ii) all of the Municipality's properties are inspected during the full five (5) year inspection cycle.

Inspection data shall be electronically forwarded to the Municipality's data custodian at the completion of each annual portion of the project. Upon completion of a review by the Assessor, should discrepancies appear in the Company's data, the Company shall make the necessary corrections at its own expense.

The format of the property record data collection card shall be as indicated on the Monmouth County System (MOD IV and CAMA). The Assessor may make random spot checks throughout the Municipality to verify that inspections are being conducted in the appropriate manner. The Assessor or his designee may accompany Company employees at any time during field inspections.

16. Added/Omitted and Farmland Assessment Inspections; New Sketches

The Assessor shall provide the Company with notice by March 1 of each year (except 2020 which will be by August 1, 2020) in which it directs the Company to perform Added/Omitted and/or Farmland Assessment inspections, upon the terms provided in Appendices G and H, respectively. Such notice will indicate if the Municipality is directing the Company to create new, electronic sketches of any property classes, and include a preliminary list of properties for Added/Omitted inspections, if available.

Any Added/Omitted inspections shall pertain to all properties with outstanding permits, and in no circumstance will the Company perform inspections upon any subset of such permitted properties (with other Added/Omitted inspections being performed by the Municipality or third parties).

If the Municipality elects to have the Company perform its Added/Omitted inspections, it will furnish a final list of such properties (in a format provided by the Company, which may include entry via an online portal) by June 1 of each year (except 2020 which will be by August 1, 2020). If the Municipality regularly updates its permit file in MOD IV, this file will be the required deliverable to the Company.

17. Computer Requirements:

The data collection of all properties must be computer generated so that the data can be integrated into the computer mass appraisal system (CAMA). The Municipality currently uses and will continue to use Micro Systems-NJ tax assessment software.

It shall be the Company's exclusive responsibility to ensure compatible and actual operation of any computer system that the Company may use.

The Real Property Appraisal Manual of New Jersey, Third Edition, Volumes I and II and any updates must be computerized for the purpose of generating computer data files for residential and commercial properties.

No distribution of any materials, with the exception of the MOD IV tape as required by the state, shall be permitted.

18. Digital Photography:

A new digital photograph will be taken by the Company, at its own expense, for all improved properties (no matter the class), which will include the county and municipal district code, tax block and lot, and be properly attached to the MOD IV and CAMA files for each property. Additionally, residential or commercial structures on the same parcel shall be separately photographed, and Municipality may direct the Company to take additional photos for an agreed upon fee.

19. Residential Data Collection:

For data collection relating to residential properties, the schedules shall contain all variations of wall construction, roofs, floors, heating, air-conditioning, plumbing, fireplaces, interior finish, finished attics, dormers, finished basements, built-ins, multi-family homes, decks, patios, porches, piers, piles and garages, the condition of which will be verified (or changed, if applicable) in each property record.

20. Commercial, Industrial and Apartment Data Collection:
